Carlos de la Torre

Computer Engineer

Computer Engineer with experience in customer service, management, and teamwork. Passionate about technology, I seek opportunities to expand my technical skills and develop my potential in areas such as data analysis, while remaining open to other challenges in the technology sector. My goal is to grow progressively in a dynamic and innovative environment that values personal and professional development.

PROFESSIONAL EXPERIENCE

Smart-Rent - *Full Stack Developer*   Jun. 2022 - Now

I work as a developer at a startup, having worked in various areas of computer science such as web development in PHP, HTML, CSS, and JS, API development (with a focus on OpenAI), and Python scraping.

Gastrobar PI - *General IT*   Dec. 2019 - Jun. 2020

Communication management and general IT support.

PROJECTS

ToBoVet - *Developer*   Jun. 2023 - Apr. 2025

Developing a management system for ToBoVet, a home veterinary clinic, as my Bachelor's Thesis Project, using tools like React, Jest, native TypeScript, and overseeing the project from inception to implementation.
